

Rider Solutions is a specialist transport and project management consultancy based in London operating across the UK.

Through its Managing Director John Rider who has over 17 years experience, Rider Solutions offers an affordable solution to any organisation seeking transport policy or project management support.

Ranging from short one-off projects to extended secondments, each assignment will be handled with the professionalism and integrity you would expect.

Transport Policy

- High level support to public sector bodies in developing their transport policies and programmes and integrating these within a framework seeking to encourage economic growth and environmental sustainability
- Support to the development industry in the preparation and management of planning applications and policy submissions, including specialist transport and planning input
- Sustainable transport project advice, including walking, cycling and public transport projects, together with auditing of travel plans

Project Management

- PRINCE2 certified practitioner with over 9 years project management experience
- Support for the development of robust project mandate including business justification and outline business case (OBC)
- Risk management and evaluation including facilitation of risk workshops and calculation of expected monetary value

Technical Services

- Expertise in data collection and management techniques designed to maximize the availability of high quality data to support policy initiatives at the minimum cost
- Expertise in road safety and congestion reduction strategy development, drafting road safety strategies and congestion management plans
- Expertise in data analysis and interpretation monitoring trends and identifying key performance indicators

Stakeholder Engagement

- Stakeholder engagement services working with small groups, elected officials and the general public designed to strengthen support and legitimacy for projects and initiatives
- Providing facilitation, mentoring and distance learning services to professional bodies and academic institutions
- Strong account management skills with experience managing multi-disciplinary teams and communicating results to a non-technical audience

Operational Efficiency

- Reviewing operational efficiency within a team or division in order to assess the potential efficiency saving through better cross-departmental working and better ways of working
- Review of current activities resulting in time/resource savings
- Mentoring and professional development support to professional bodies (CILT, CIHT, ICE, RTPI) offering guidance and advice to young professionals working towards Chartership

Funding & Resourcing

- Support and advice to public sector organizations on strategies to maximize their approach to identifying and targeting external funding streams, including bidding and resourcing
- Bid writing services
- Secondment support to public or private sector organizations on a needs-basis

OUR APPROACH TO DELIVERY

Flexibility

Rider Solutions recognises that each assignment is totally unique and offers complete flexibility in its approach to project delivery. Our service can be acquired through a range of alternative methods

- For a designated problem period or to provide short term support for a particular issues (e.g. to support a forthcoming funding bid or to help prepare a response to a Government policy document)
- As a secondment to cover short term absenteeism, maternity cover or a particularly busy period
- As a one-off contract to undertake a specific short term piece of work
- On a retainer for a specific number of hours per month. Given the breadth of our experience this may be of value to clients with limited resources and a range of issues/projects they wish to progress

Coaching/Mentoring style

Through a collaborative approach to delivery, as well as providing a high quality professional service, a further benefit of working with Rider Solutions will be a noticeable uplift in performance across your wider team. By challenging and questioning team members, skills and knowledge are transferred far more effectively through your organisation, leaving you in a far better position to cope with future challenges.

For more information on any of our services or to discuss any specific projects please do not hesitate to contact John Rider our Managing Director at
