

Rider Solutions is a specialist transport and project management consultancy based in London operating across the UK.

Through its Managing Director John Rider who has over 17 years experience, Rider Solutions offers an affordable solution to any organisation seeking transport policy or project management support.

Ranging from short one-off projects to extended secondments, each assignment will be handled with the professionalism and integrity you would expect.

THE SERVICES WE OFFER

- Development of road safety strategies and plans
- Quantitative and qualitative analysis of road traffic accident data to identify hotspots and suggest appropriate remedial measures
- Strategic advice relating to congestion management and reduction including network management, co-ordination of roadworks, parking strategy and initiatives to encourage mode shift away from single occupancy car use
- Support regarding the collection, analysis and utilisation of traffic data including advice on data management and the importance of a robust data collection strategy
- Independent advice with regards data collection requirements linked to the development of a traffic model
- Annual staff surveys aligned to an organisational travel plan
- Preparation of evidence and submissions for Public Inquiry and Examination in Public
- Advice and support to voluntary and community organisations requiring expertise in transport policy development
- Distribution network reviews – Optimisation of collection and delivery routes to minimise carbon emissions and driver hours and maximise vehicle utilisation

THE EXPERIENCE WE BRING

- Over 17 years experience in the transport and logistics industry including: Central Government; Local Government; Consultancy and Industry
- Practical knowledge across a range of modes: Car; Public Transport; Plane; Walking; Cycling; Freight;
- Proficiency across a range of sectors: Smarter Choices; Aviation; Highways; Public Transport; Freight
- A strong network of industry wide contacts
- Practical experience of Public Inquiries and Examinations in Public, including presentation of evidence
- Sound professional judgement allied with a broad base of experience from which to develop practical, workable solutions
- Excellent communication skills, conveying technical material in a digestible format to a non-technical audience

OUR APPROACH TO DELIVERY

Flexibility

Rider Solutions recognises that each assignment is totally unique and offers complete flexibility in its approach to project delivery. Our service can be acquired through a range of alternative methods

- For a designated problem period or to provide short term support for a particular issue (e.g. to support a forthcoming funding bid or to help prepare a response to a Government policy document)
- As a secondment to cover short term absenteeism, maternity cover or a particularly busy period
- As a one-off contract to undertake a specific short term piece of work
- On a retainer for a specific number of hours per month. Given the breadth of our experience this may be of value to clients with limited resources and a range of issues/projects they wish to progress

Coaching/Mentoring style

Through a collaborative approach to delivery, as well as providing a high quality professional service, a further benefit of working with Rider Solutions will be a noticeable uplift in performance across your wider team. By challenging and questioning team members, skills and knowledge are transferred far more effectively through your organisation, leaving you in a far better position to cope with future challenges.

For more information on any of our services or to discuss any specific projects please do not hesitate to contact John Rider our Managing Director at
